

## Lora Bassett's Bio for the Staff Assembly Position

Hello my name is Lora Bassett and I am running for the position on Staff Council as the Staff Assembly Representative.

“Always willing to help and give to others,” this is what my co-workers would tell you if you asked them my work ethic. I believe in helping others in the community and in my place of employment. The University of North Carolina at Charlotte is more than an employer it is a family. In my 16 years serving this institution I have always believed in the morale of the staff and giving back to my fellow employees. I have done this by serving in multiple roles on the Staff Council. These roles include: area 2 representative, alternate and chair of events and education committee (multiple times). Not only have I had a hand in helping in all staff council events but I had the vision along with my fellow co-worker to start the Safety Committee. Chairing these events requires planning, organization, reliability, motivation and efficiency. Based on these characteristics and my history in multiple staff council roles I would be perfect for this position. Leadership comes easily to me and I would be honored to serve on as the Staff Assembly Representative for UNC Charlotte.
